CHARGING

► How to Charge

Insert the charging cable into the SmartWatch and connect the other end to a USB power source such as an adapter, computer, or powerbank. The charging port is a standard 2 mm.

Charging port●

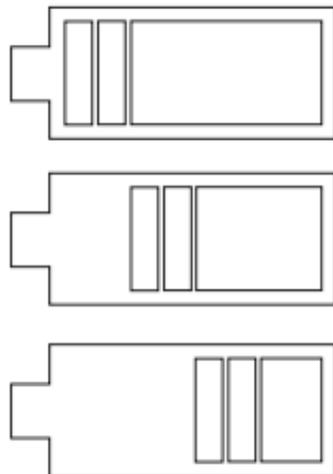

CHARGING

▶ Charging Time

Charging time is approximately two hours. When your SmartWatch is finished charging, the battery symbol on the screen will indicate full.

▶ Charge Indication

When charging, the number of power grids displayed will increase until fully charged.

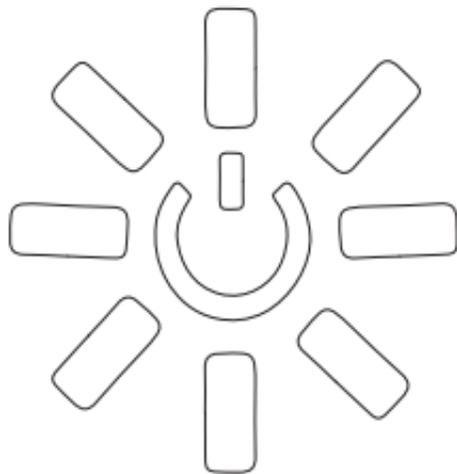

CHARGING

► Standby Time

The standby time is approximately 72 hours.

Note: Vibrations and screen display usage will affect the standby time. After being powered off, the watch will keep time for approximately four weeks.

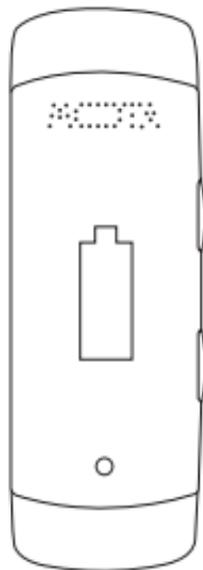

CHARGING

▶ Low Battery Notification

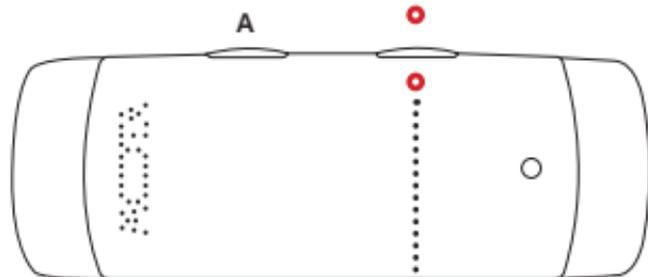

When the battery charge is low, “Low Battery” will be displayed on the screen. If the battery charge is very low, your SmartWatch will power off automatically.

Low Battery○

POWER

Power ON: Press and hold button **(B)** for 2 seconds, until the “MOTA” logo is displayed.

Power OFF: Press and hold button **(B)** for five seconds, until “Power Off” is displayed.

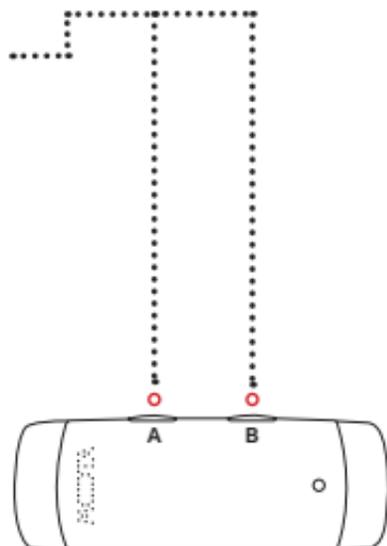

SET TIME

With the screen displaying the time, press and hold button **(B)** for two seconds in order to set the time (**minute-hour**). The minute digits will begin flashing first.

Press button **(A)** to advance the minutes until the minute is correct.

To set the hour press button **(B)**, then press button **(A)** to advance the hours until the hour is correct.

Press button **(B)** again to save and exit Set Time.

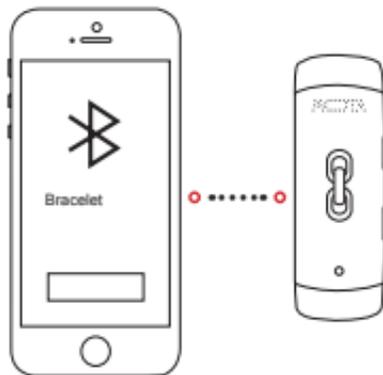

PAIRING

1. Keep the SmartWatch within 5 ft of your cell phone and ensure that it is powered off. Press and hold down the **(B)** button until the unit powers on and a small cell phone symbol appears on the upper left corner of the SmartWatch screen. Continue by adding the device via the Bluetooth settings from your phone. Your SmartWatch should be visible as MOTA-G2.

If prompted for a password, please use "0000". After pairing, a connected icon will be displayed to indicate a successful connection.

2. To terminate the Bluetooth pairing, go to the Bluetooth setting on your phone and disconnect the device.

CALL OPTIONS

When you receive a call the SmartWatch will vibrate, displaying the caller's ID.

To receive the call, press button **(A)** to answer.

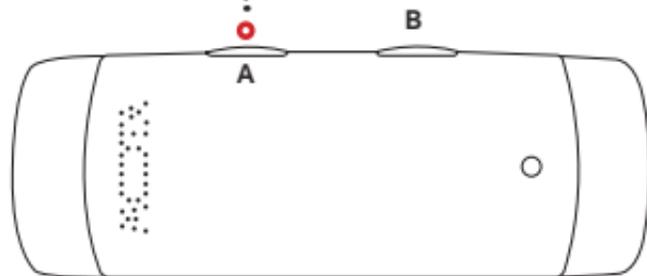

To reject the incoming call, press button **(B)**.

To increase or decrease the sound's volume during the call, press button **(A)** or **(B)** respectively.

To end the call, press and hold button **(A)** for two seconds.

CALL OPTIONS

Press button **(A)** to re-dial the last person you called. Press **(A)** to confirm and **(B)** to cancel the redial.

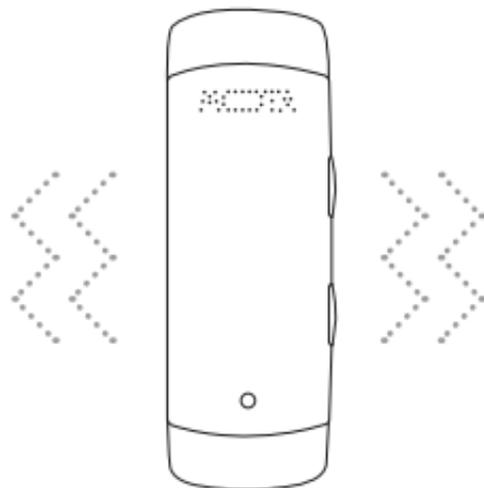

RESET

Reset:

If you restart your SmartWatch, you will need to re-connect via your phone's Bluetooth.

Un-Pairing Phone:

To unlink your SmartWatch simply go to the Bluetooth function on your smartphone and disconnect the device.

SAFETY GUIDELINES

Do not immerse your SmartWatch in liquids or expose it to excessively high humidity.

Do not use detergent to wash the SmartWatch.

Do not expose the SmartWatch to extreme temperatures (high or low).

Do not attempt to open the SmartWatch, as this may void your warranty.

PLAY MUSIC

When paired with your phone, you can use the music player on your phone to listen to music on your SmartWatch G2 LITE.

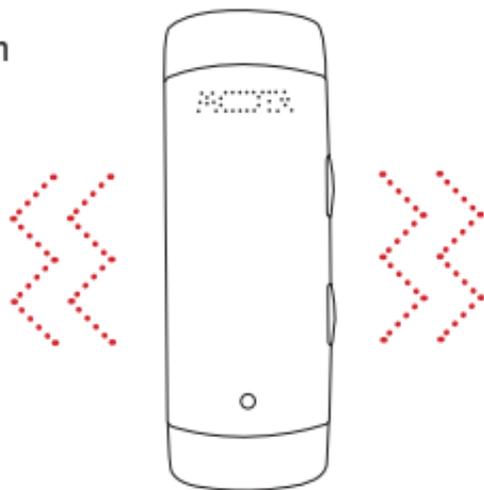

To increase or decrease the sound's volume, press button **(A)** or **(B)** respectively.

Press and hold button **(A)** for two seconds to skip to the next song.

Press and hold button **(B)** for two seconds to go to the last song.

ANTI - LOST

The SmartWatch has an anti-lost feature that will alert you by vibrating and beeping when you are more than 20 feet away from your phone.

VOICE COMMAND

iOS Devices

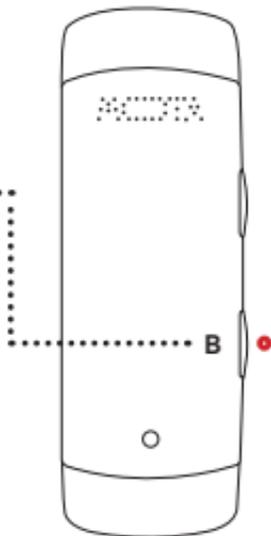

When your SmartWatch is paired with your iOS device, press **(B)** to activate the voice function.

Press **(B)** to confirm and the screen will display Speak.

Speak your command to receive virtual personal assistance from SIRI.

Press **(A)** to cancel the voice button.

SIRI® is a Trademark of Apple Corporation.

VOICE COMMAND

This SmartWatch is meant for use only in conjunction with the appropriate mobile devices. Please consult your device packaging to determine whether this SmartWatch is compatible with your particular mobile device. Manufacturer is not responsible for any damages to any device incurred through the use of this product.

Manufacturer shall not, in any way, be liable to you or to any third party for any damages you or any third party may suffer as a result of use, intended or unintended, or misuse of this SmartWatch in conjunction with any device or accessory other than the appropriate mobile device for which this SmartWatch is designed for.

LEGAL

Warning: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates and can radiate radio frequency energy, if not installed and used in accordance with the instructions, it may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- ▶ Reorient or relocate the receiving antenna.
- ▶ Increase the separation between the equipment and receiver.
- ▶ Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- ▶ Consult the dealer or an experienced radio/TV technician for help.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions : **(1)** this device may not cause harmful interference, and **(2)** this device must accept any interference received, including interference that may cause undesired operation.
